Managing University Social Responsibility (USR)

Juan Reiser G.  
Pontificia Universidad Católica del Perú

What is Corporate Social Responsibility?

It is an ethical and intelligent management of the IMPACTS produced by the organization on its human, social and natural environment, for the sustainable development of Society.
It is a policy of ethical quality of the performance of the university community (students, faculty, and administrative employees) via the responsible management of the educational, cognitive, labor and environmental impacts produced by the University, in an interactive dialogue with society to promote a Sustainable Human Development.

Our definition of Sustainable Campus

University Social Responsibility (USR) is an approach of ethical an intelligent University management, which involves both its impact on its human, social and natural context, and its active role on the promotion of Sustainable Human Development of the country. Within this approach, “Sustainable Campus” is a strategy that strives to reduce the ecological footprint of the institution via a rational use of resources and to educate the university community on the ethics of sustainability.
