

Sustainability at the ETH Domain

1. Centers of Competence

CCES – CC for Environment and Sustainability (leading house = ETH Zürich). **5 Research (and Education) Units:** Sustainable Land Use / Climate and Environmental Change / Food, Environment & Health / Natural Resources / Natural Hazards & Risk

CCEM – CC for Energy & Mobility (leading house = PSI)

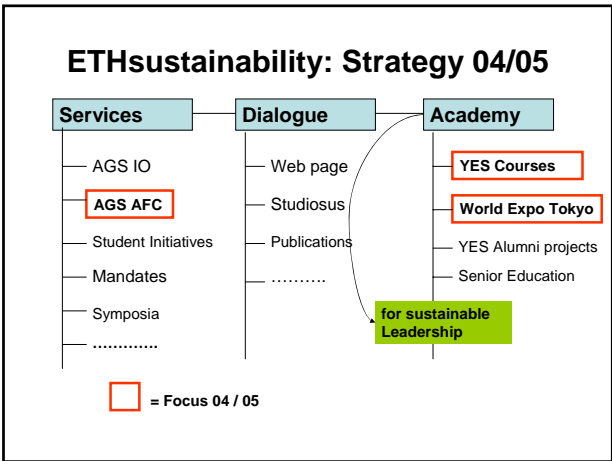

2. Novatlantis

The 2000 W Society: Sustainable Energy concepts in Buildings Infrastructures and Mobility. Concrete application and realization – 3 focus towns in Switzerland (Basle, Zürich, Geneva). Sustainable Campus.

Sustainability at ETH Zürich

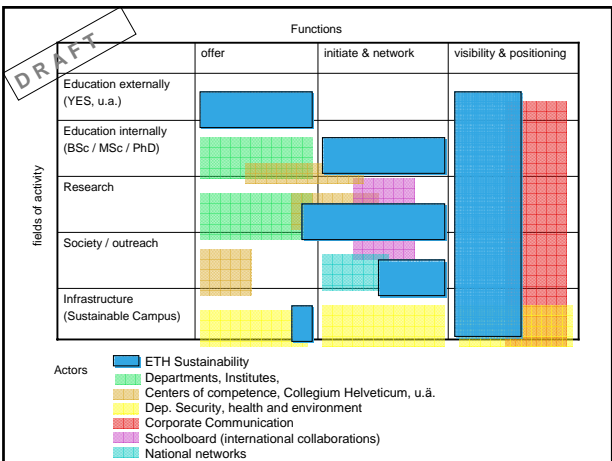

From the AGS* to ETHsustainability

* **AGS = Alliance for Global Sustainability.** Research partnership between MIT-Boston, ETH Zürich, University of Tokyo, Chalmers Technical University Göteborg. Some 80 research projects realized, founded in 1997

New ETHsustainability (in planning)

- Coordination office for all Sustainability activities at ETH Zürich (Education / Research / Infrastructure / communication and visibility / Outreach)
- Strategically positioned at the school-board-level (leadership = President or one of 3 Vice-Presidents)
- Steering committee with members from the departments
- Kick-off = January 2008

AGS Summer Institute **Y.E.S.**

AGENDA
21
The Challenge
of a Sustainable
Future World

Summer Institute for University Undergraduate and Graduate Students
