

## Lillis Business Complex

- Goal: LEED accredited student centered building that supports dynamic and flexible learning environment and inspires sustainable thinking and learning.
- Building features:
  - Small-group team project rooms
  - Flexible tiered classrooms
  - Six learning centers
  - Student resource centers for each program area
  - Career center with interview rooms
  - 300-seat lecture hall
  - Wireless network and internet access throughout the building, along with distance learning enabled via video conferencing.

## Facilitating Factors

- User group pushed for green design up front and perceives recruiting advantage
- Private donor keen on green design
- “No dumb questions” design environment
- Design decisions were totally internal to UO
- Lower life cycle costs

## Insights

- LEED “point chasing” resulted in failed green roof
- Early success with green design has created campus wide enthusiasm for sustainable building
- State requirement to build LEED Silver equivalent not seen as a burden.
